Summary

Motivated student at 1337 coding-school with a passion for computer science, problem solving, and DevOps. Skilled in backend development (Express.js, Django), frontend (React.js, Next.js), Kubernetes, microservices, Infrastructure as Code, and designing CI/CD pipelines to streamline software delivery and improve operational efficiency. Quick to learn new tools and technologies.

Education

1337 Coding School

IT Architect

November 2023 - Present

Khouribga, Morocco

University Moulay Ismail

DEUG Mathematics and Computer Science

October 2020 - July 2023

Meknes, Morocco

Lycée Tarik Ben Ziad

Baccalauréat Sciences Mathématiques A

July 2020

Azrou, Morocco

Skills

Programming Languages

C/C++, Python, TypeScript, JavaScript

Backend Frameworks / Libraries

Django, Express.js and Flask

Frontend Frameworks / Libraries

React.js, Next.js and Tailwind CSS

Containerization & Orchestration

Docker and Kubernetes

CI/CD & Automation

GitHub Actions, Jenkins, GitLab CI/CD and Argo CD

Infrastructure as Code

Terraform, Ansible and Vagrant

Cloud Platforms

Azure and Google Cloud Platform

Databases & Message Brokers

MySQL, PostgreSQL, Redis and RabbitMQ

Monitoring & Logging Tools

ELK Stack, Prometheus and Grafana

Security analysis

SonarQube, Trivy, Tfsec, Terrascan and Snyk

Certifications

GitHub Foundations

GitHub

[Show credentials](#)

GitHub Certification validates expertise in version control, repository management, collaborative workflows, and modern development practices, demonstrating comprehensive proficiency in Git, project management, and team collaboration tools.

GitLab CI Fundamentals

GitLab University

[Show credentials](#)

GitLab CI Fundamentals Certification verifies skills in continuous integration and deployment, pipeline configuration, automation strategies, and DevOps practices, showcasing strong expertise in GitLab environments and modern software delivery workflows.

Introduction to Agile Development and Scrum

Coursera

[Show credentials](#)

IBM Certification where I learned how to adopt Agile practices, write user stories, estimate and assign story points, and track them using a Kanban board. Also, incorporated Scrum artifacts, events, and benefits.
